

Fiber optic cable MPC

Overview

MPC multi-purpose distribution cable use 6-ber subunits ($\Phi 900\mu\text{m}$ tight buer ber, aramid yarn as strength member). A ber reinforced plastic (FRP) locates in the center of core as a non-metallice strength member. In some fiber optic applications, it is possible to use a long wavelength (1300 nm) single-mode transceiver with multi-mode fiber by placing a special device known as a mode conditioning patch (MCP) cable at both ends of the link. As a technical Fiber Optics Cable manufacturer, Hosiwell also supplies the Multi Purpose Distribution Cable (MPC) series product in best quality. We offer a wide array of reliable and cost-effective products from standard solutions to custom designs. The PolyPhaser multi-fiber cable MPC-MM8M3-AZ-3 provides great advantages in size by offering up to 8 times the density when compared to the same size SC connector! Factory terminated and tested, the OM3 40 Gigabit rated 50/125 Multimode fiber optic cable MPC-MM8M3-AZ-3 provides significant.
