

# **Fiber optic cable attachment machine out of control**

## Overview

---

The fiber optic cable from the machine room to the user end has been cut. In the world of corporate-acronym-speak, most manufacturers are very familiar with ERP ("Enterprise Resource Planning") or MRP ("Material Resource Planning") systems: software packages designed to automate control of various manufacturing operations. BM-Rosendahl is the global supplier of production equipment for lead-acid and lithium-ion batteries. Placing optical fiber cables in duct systems using air-assisted installation techniques presents different installation requirements than traditional pulling.
