

Fiber optic cable batch number

Overview

Here is the most important information: 864F means the cable contains 864 fibersSM means singlemode fiber250 means the fiber has a 250 micron buffer coating0. The color code used for fiber optics is similar to copper, except for the addition of two colors: Rose (11 th) and Aqua (12 th). The text on the cable starts with the Corning product name "Corning Rocket Ribbon (TM) Optical Cable," date of manufacture "01/2022" and a serial number. Sukpply class aoe; nimitz class cvn; wasp class lhd; tarawa class lha; spruance class dd (963); forrestal class cv; ticonderoga class cg (47); los angeles class ssn (688); oliver perry class ffg end item identification, feat criticality code justification, single mode cable; weapon system essential. All products are in full compliance with all applicable certifications and regulations. Explore Compliance Center Inside FS Labs FS labs combine one of the most extensive and stringent testing processes to ensure quality.
