

Fiber optic terminal box and ODF

Overview

Regardless of the complexity of these 3 types of fiber optic boxes, actually, they are a bracket for the coupler and never participate. appropriate space to meet minimum bending radiusNext, we are going to focus on their difference.

Fiber optic terminal box and ODF

How Do FTB Differ from ODF in Fiber Optic

In fiber optic network, two critical devices often come into play: Fiber Terminal Boxes (FTB) and Optical Distribution Frames (ODF).
