

Fire-resistant bundled optical cables are available in a full range of models

Overview

Available in both multimode (OM3/OM4) and singlemode (OS2) variants, they support configurations from 4 to 24 cores in a durable central loose tube design. Meeting stringent international standards, these cables are tested for both fire resistance (IEC 60331-25) and flame. ETK Kablo 's fire-resistant fiber optic cables ensure continuous data transmission during fire conditions, safeguarding critical communication lines when reliability is most crucial.

Fire-resistant bundled optical cables are available in a full range of

GUXTI04

Universal (Indoor/Outdoor) tight buffered optical fiber cable with glass yarns as strength member and improved rodent protection with Low Smoke Zero Halogen outer jacket. 4 fibers SM OS2 G.657.B3.
