

# General Use for Cable Trays and Ladders

## Overview

---

These two components are commonly used to support and protect cables, but they have some key differences that can affect their suitability for your project. This publication is intended as a practical guide for the proper and safe\* installation of cable ladder systems, cable tray systems, channel support systems and associated supports. There are several types of cable trays, including ladder, perforated, solid bottom, basket, and channel trays.
