

German electrical distribution boxes are heat resistant

Overview

They are made of white self-extinguishing plastic, resistant to heat and high temperature. What are the types of construction power distribution boxes?

The type and scope of electrical equipment on construction sites is geared to the size and particular circumstances of each site. Pepperl+Fuchs provides a specialized portfolio of Ex d (flameproof) and Ex tb (dust protection by enclosure) certified terminal boxes and junction boxes engineered for reliable use in explosion-hazardous areas. With over 1,000 employees, 640 of them in Germany, 14 subsidiaries in Germany and abroad, we have been operating successfully in the market for over 90. Ideal for temporary setups like events or mobile worksites, offering flexibility and mobility.
