

Ghana ADSS Armored Optical Cable

High-quality ceramic ferrule

Overview

FRP Armoring between the inner and Outer HDPE Sheath Gives the cable Excellent Tensile Strength, Mechanical, and environmental Protection. All-dielectric self-supporting (ADSS) cable is a type of optical fiber cable that is strong enough to support itself between structures without using conductive metal elements. the non-metallic structure makes the cable have good electromagnetic interference resistance. ADSS fiber optical cable innovative structure has been meticulously crafted to provide optimal performance and exceptional durability, ensuring that it meets the highest standards of reliability in the field. This supplier is both a manufacturer and trader, and primarily exports to Côte d'Ivoire, Tajikistan, and Myanmar.

Ghana ADSS Armored Optical Cable

ADSS Fiber Optic Cables Types Prices & Technical

ADSS cable is ideal for installation in distribution as well as transmission environments. Since the ADSS cables provide an optimal solution for a broader
