

Gigabit fiber optic home router setup

Overview

To set up your router for fiber internet quickly, connect the router to your fiber modem, access the router's settings via a web browser, and input the provided ISP credentials. GFiber offers two installation paths to connect your home to our fiber-optic network: professional installation by a technician or a simple self-setup for eligible addresses. Both options include the necessary equipment, such as a Fiber Jack and an advanced Wi-Fi router, at no additional cost. A GFiber technician has already installed your Fiber Jack (this was done when they set up your. Fiber transmits data using light signals through glass strands, delivering faster speeds and lower latency than cable or DSL connections that rely on.
