

ZTP Thermal & Power

Guatemala Micro-Module Data Center IP65

Overview

Excellent environment adaptability, stable operations under -40°C-55°C; IP65 design; multiple reliability tests guarantee Modular architecture, shorten 50% go-online period; on-demand deployment, flexible investment; smart O&M, unattended operation

Excellent environment adaptability, stable operations under -40°C-55°C; IP65 design; multiple reliability tests guarantee Modular architecture, shorten 50% go-online period; on-demand deployment, flexible investment; smart O&M, unattended operation

Information explosion means sharp increase of data. According to GCI index, it is estimated that there will be more than 100 billions connectivity globally by the year 2025. Industry-leading nominal cooling capacity designed with next generation IT in mind. Single 48RU IT Rack solution with 10, 20, or 30kW integrated best-in-class power and cooling. Deploy your edge projects in more than 17 world-class data centers across Latin America from just 1 RU. It uses racks as the datacenter carrier and fully integrates all sub-systems including UPSs, cooling, power distribution, lightning protection, fire control (optional), wiring, airflow management, intelligent. Discover our range of products in Prefabricated Data Center Modules: Modular Data Center All-in-One Essential, All-in-one module, Preconfigured Modular Room, Prefabricated Modular IT Pod, Prefabricated Data Hall, Power Module, Power Skid

Working with our Vertiv Sales team enables complex designs to be configured to your unique needs. If you are an organization seeking technical guidance on a large project, Vertiv can provide the support you require.
