

H3c View Module Optical Power

Overview

If you know the model or type of an optical module, you can view the section "Pluggable Modules for Interfaces" in the Hardware Description to look up parameters of the optical module, including the center wavelength, transmission distance, fiber types supported . Appendix A Chassis views and technical specifications Chassis views Power module views Transceiver module, fiber connector, and optical fiber views To connect a fiber port, use an SFP,SFP+ or QSFP+ transceiver module and a pair of optical fibers that use an LC connector. The following uses the Moduletek QSFP-40G-LR4 module connected to an H3C S6820 switch as an example to introduce how to read information of the connected optical module on an H3C switch. Summarize the port photoelectric port conversion and optical power viewing commands of commonly used manufacturers' equipment, a reminder! Each manufacturer's photoelectric port conversion command: Huawei: China Three: Ruijie: Cisco: Commands for viewing optical power of various manufacturers:.
