

Haiti Figure-Eight Optical Cable 12 Cores

Overview

12 Core GYTC8S Fiber Optic Cable Armor Stranded Loose Tube Steel Wire Strength Waterproof Figure 8 Self Supporting Outdoor GYTC8S is a typical self supporting outdoor fiber optic cable, suitable for aerial applications; The cable have nice moisture resistance performance and crush. The structure of the standard figure-eight self-supporting stranded optical cable is that single-mode or multi-mode optical fiber is sheathed in a loose tube made of high modulus plastic, and the tube is filled with water blocking compound. The loose tube design provides stable performance over a wide temperature range and is compatible with any telecommunications-grade optical fiber. Aerial Figure 8 Fiber Optic Cable GYXTC8S with FRP reinforcement and single mode 24 core configuration. 657; EN 187000; Telecordia GR-20 issue 3rd May, 2008 2000 meters $\pm$ 10% or customized to.
