Haiti Trapezoidal Bridge

Overview

The bridge is located on a road between Miragoane and Fond-des-Blancs, in Southwest Haiti. Note: Completion year and longest suspended span length may not be known for all bridges listed below. , November 12, 2025 —The World Bank's Board of Executive Directors approved a new project in Haiti aimed to improve resilient rural accessibility and road connectivity in the South and North departments. The bridge provides a critical and safe transportation link that allows year round access to two hospitals, multiple communities and schools in the area that typically have no access during periods of rain. A community in Port-au-Prince, Haiti called Carrefour Feuille is heavily populated and one of the poorest areas in the country. CAN-DO made regular water drops to this area, and returned again in December 2013 to check-in and do an assessment on their current needs. Pont Ladigue, Petit Goave In the aftermath of Hurricane Matthew in 2016, the World Bank financed the construction of an emergency bridge in Ladigue to restore safe and all-weather access to 1.
