

# **High-density anti-static flooring cable trays IP68 in stock**

## Overview

---

The compact cable entry plates are ideal for routing standard cables without connectors from 1. Electrostatic discharge (ESD) floors are floors installed with ESD flooring systems to protect electronics from damage caused by static electricity which accumulates from traffic. ESD floors, also known as static-dissipative floors (1 Mohm to 1000 Mohms) or conductive floors (. Choose from our selection of floor cable trays, including multichannel interlocking cable ramps, drop-over interlocking cable ramps, and more. The new PFLITSCH Floor Trunking is an innovative further development of the previous automotive trunking, specially designed for industrial environments with high demands on load-bearing capacity and slip resistance.
