

ZTP Thermal & Power

High-density modular data centers available for immediate shipment

Overview

Explore our pioneering modular systems engineered for extreme density, rapid deployment, and ultra-efficient operation. Fast-track your infrastructure deployments—up to 180 MW capacity delivered within weeks at a fraction of conventional construction costs. Schneider Electric, the leader in the digital transformation of energy management and automation, today announced new data center solutions specifically engineered to meet the intensive demands of next-generation AI cluster architectures. Certain categories of Vertiv products can be purchased through an online reseller. Need help choosing a product?

Speak with a highly qualified Vertiv Specialist who will help guide you to the solution that is right for you. Multiple modular data center cooling options — including free-cooling — and Tier III/IV modular data center design principles ensure reliable, efficient operation in any. Edge Modular offers an alternative to building next-gen turnkey data centers or upgrading the existing facilities to support Enterprise AI applications deployment.

High-density modular data centers available for immediate shipment

Schneider Electric Announces Easy Modular Data Center All-in-One

Available in 4 standardised form factors with additional configurable options, Schneider Electric's Easy Modular 'All-in-One' Data Centers combine all Power, Cooling, and IT equipment into
