

High-efficiency UPS system 20kW for FTTH use

Overview

Modular scalable UPS with up to 20kW N+1 redundancy Highly available, with modular power, battery, intelligence, and static bypass switch modules 1-year Secure NMC Subscription, allowing the customer to access future firmware updates, is included with purchase Extended. Delta's true online double-conversion Ultron HPH Series is the solution for small and medium data centers and mission critical applications requiring highly reliable power protection and unbeatable energy efficiency. The SUT20K SmartOnline® SUT Series 3-Phase 208/120V 220/127V 20kVA 20kW On-Line Double-Conversion UPS provides complete protection against power interruptions and fluctuations that can contribute to equipment failures and data loss. Continuous power conditioning, zero transfer time, pure sinewave output, and scalable runtime make it ideally suited to protect.

High-efficiency UPS system 20kW for FTTH use

Products

Ensuring stable and continuous power is now crucial for business continuity. The IPT series, an industrial transformer-based UPS, employs a Power Factor Correction
