

# High-efficiency cable tray accessories

## Overview

---

A functional cable tray system consists of various clamping, supporting, and splicing accessories in order to achieve the best possible system. Other additions include plastic nuts, bolts, swift clips, wire baskets, couplers, tees, crosses, and brackets. They offer an alternative to open wiring or electrical conduit systems and are necessary for cable management in commercial and industrial construction, as well as. However, the overall performance of any cable tray installation depends not only on the tray itself but also on the proper use of cable tray accessories. We have been successfully providing solutions through mastering our main and is a member of the US Green Building Council. For ease of installation and accessibility, lay cable and hose in trays instead of pulling it through conduit or raceway.
