

High-quality 18-slot beam splitter

High-quality 18-slot beam splitter

Beam splitter optical module for high-speed imaging

Added to this already challenging design specification we stated that the new beam splitter optical module should also be able to incorporate high quality, user changeable filters that

[Read More](#)

Beamsplitters , Optics , DigiKey

Beamsplitters (Beam Splitters) are components that split light at a specified point. These are used in various optic systems including fiber optics. They can be filtered by the type (either cube or plate)
