

High-quality European hot-dip galvanized cable trays

Overview

High-quality Hot-Dip Galvanized (HDG) cable management systems for industrial, commercial building, and solar energy projects. PG: Pre galvanized carbon steel according to EN 10346, suitable for dry indoor environments and light industrial applications. These trays are coated with a thick layer of zinc through the hot dip galvanization process, offering enhanced protection against corrosion, harsh weather, and heavy industrial.
