

How are outdoor cable trays laid

Overview

From ladder-type cable trays to perforated and solid-bottom trays, each serves a different purpose. Ladder trays offer airflow and easy cable entry, while perforated cable trays support lighter loads. B manufactures its cable tray in a range of materials with a variety of finishes. The selection of material and finish is a function of the environment in which it is used in a wide range of environments, and easily formable (Appendices II and III).

How are outdoor cable trays laid
