

How many units does a 24-port fiber optic patch panel occupy

Overview

The 24 port patch panels predominantly occupy a space of 1U in the network racks. The Excel range of LC patch panels are sliding drawer "tray style" housings suitable for either direct termination or splicing of up to 24 fibre using SC simplex or 48 when using LC duplex connections in a 1U space. Maximize the performance of your network with reliable, high-quality fiber patch and adapter panels, fiber enclosures, and fiber cassettes.
