

**ZTP Thermal & Power**

# **How much does a Western European outdoor server rack cost**

## Overview

---

**Rack Purchase Price:** An entry-level 42U rack typically costs around £500, serving as a baseline. **Installation Expenses:** These can vary based on specific installation requirements. **Additional Features:** Optional items like castors and levellers may increase overall costs. Filter by location, rack size, pricing, bandwidth, power, and DDoS protection to find the perfect colocation plan for your servers. Some companies may change their pricing or plan offerings over time, so data may not be 100% accurate. They rent a space not only for a dedicated server, but also for one or several units in a server rack, an entire rack or several server cabinets in a closed box. Regardless of how many units are rented, clients are provided with full packages of services on the use of hardware capabilities, uptime. An outdoor server rack is a weather-resistant, lockable enclosure designed to house 19-inch IT equipment—servers, switches, routers, power supplies, and environmental controllers—in exposed environments: utility poles, telecom cabinets, parking lots, construction sites, agricultural sensors, or. How much do servers cost?

Server prices start from 550 € and depend on the components.
