

How much does a pair of elevator optical modules cost

Overview

Recent advancements in technology can significantly impact installation expenses. Modern sensors often come with enhanced features, such as smart capabilities. Since modernization projects range from \$15,000 to \$100,000+ (depending on elevator type), request bids from 2-3 qualified providers to compare costs and scopes. How much does an SSI LOGIMAT® Vertical Lift Module cost?

The price of an SSI LOGIMAT® Vertical Lift Module depends primarily on the size (width and height), the number of trays, the carrying capacity, and the requested options. An aging elevator does not announce its obsolescence with a single dramatic failure — it signals through escalating repair costs, increasing downtime, tenant complaints, code violations, and parts that take 12 weeks to source from discontinued product lines.
