

How much does a plastic optical fiber channel cost

Overview

Factors like armor, jacket rating (LSZH), and raw material indices influence the final ex-factory price. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more. We stock a wide range of Fiber Optic Cable, such as Plastic Optical, OM3 Multimode, OS2 Singlemode & Multimode Fiber Optic Cable from the worlds top manufacturers including: Broadcom, Phoenix Contact, Fibre Data & Pepperl+fuchs. Main cost drivers include cable grade (indoor vs outdoor, armoured), distance, and labor for trenching, splicing, and termination. Here's a general pricing reference: These are indicative prices based on standard configurations.
