

How much does a server rack network cable cost

Overview

Additional component costs are estimated at \$500, and labor is expected to require 40 hours at a rate of \$30 per hour. Power and Cooling Infrastructure Power Distribution Units (PDUs): \$200 to \$1,500 per unit, depending on capacity. Each project's unique requirements play a significant role in determining the overall cost. The cost of installing one or two cables can range anywhere between \$300 to \$850, for larger projects you can expect anywhere between \$1,200 to \$60,000+. To estimate the cost of structured cabling, use the following formula: $\text{Total Cable Cost} = \text{Cable Length} * \text{Cost per Unit Length}$ To begin, determine the cable length required for the installation, including both horizontal and vertical runs, along with any patch cables or connectors. Mid-range racks, offering better capacity and durability, usually cost between \$500 and \$2,000.
