

How much does a spectrometer cost per hour

Overview

\$90/hour (Q-Exactive) to \$110/hour (Orbitrap Eclipse) for analysis time on a Mass Spectrometer. Prices vary widely, from a few thousand dollars for basic benchtop models to high-end systems costing tens of thousands. The final price tag depends on factors like wavelength range, light source, monochromator type, bandwidth, and automation capabilities. For spectrometer operating costs, try the ICP-OES cost calculator to help you choose from SPECTRO's full range of ICP instruments. 00 per hour for non-profits (this includes Harvard-affiliated organizations) and \$216. NEW: CIA now offers analysis by HPLC/Mass Spec and ICP (OES) Both accelerated and low temperature storage conditions are offered as well as humidity controlled chambers. An inquiry into the financial dimensions of acquiring an infrared spectrometer reveals a complex landscape extending far beyond a simple list price.

How much does a spectrometer cost per hour

Rates , Harvard Center for Mass Spectrometry

Hourly rate for custom work is \$83.00 per hour for Harvard, \$149.00 per hour for non-profits (this includes Harvard-affiliated organizations) and \$216.62 for Corporate researchers. * per batch, in
