

How much does it cost to test the wear and tear of the junction box

Overview

Generally, a standard diagnostic test might cost you anywhere from \$50 to \$150, but it could increase if the problem requires more extensive investigation. Prices at independent garages will vary the most, while big chains like Kwik Fit and Halfords should charge a standard price.

Understanding the costs associated with car diagnostics is crucial for car owners. Luxury cars, high performance sports cars and unusual vehicles are sometimes asked to pay substantially more - usually because the. I am trying to find out what this junction box actually does, and how much it might cost to replace or reprogram, as the dealers in my area are all closed and wont be open till monday.
