

# **How much does underground cable tray cost**

## Overview

---

Steel trays typically cost between \$10-\$30 per meter, while aluminum trays range from \$20-\$50 per meter. Why do cable tray prices fluctuate?

Raw material costs, demand, competition, and supply chain factors all impact pricing. Cable trays will tend to be significantly less expensive to use in 2026 than metal pipes due to their faster installation. They are strong, durable, and widely available, making them ideal for general-purpose electrical installations in residential, commercial, and industrial settings. Basic cable tray systems cost \$3-15 per foot depending on type and material. Installation labor adds \$5-8 per foot to total project costs. Ladder trays typically cost 20-30% less than solid bottom systems. Bulk orders of 1000+ feet can reduce unit pricing by 15-25%. Regional variations can impact. This guide breaks down everything buyers need to know, from price trends to cost-saving tips. Joe quickly realized the difference between spending 15 EUR/meter on rigid conduit versus 9 EUR/meter on cable trays would mean thousands of euros saved on the project – but only if installation complexity didn't add hidden costs.
