

How to add a router to a 50Mbps fiber optic connection

Overview

To set up your router for fiber internet quickly, connect the router to your fiber modem, access the router's settings via a web browser, and input the provided ISP credentials. However, setting up a fiber optic connection to your router can seem daunting if you're unfamiliar with the process. This comprehensive guide combines industry standards with field-tested practices to ensure you achieve a rock-solid. My router is capable of PPPOE as well as other connection options and I wonder how do I get the details to set it up?

Can you tell us the name of the manufacturer and the typename or partno. Routers designed for DSL (which uses phone line inputs) or cable (which uses coaxial inputs) won't work.
