

# **How to connect pre-assembled optical cables**

## Overview

---

This video just show you how to use fiber optic cable coupler to joint to pre-made fiber optic cable step by step with clear explanation, including each single detailed operation, let's get start. No special knowledge or tools are needed to install HELUCOM® pre-assembled fi bre optic cables. We ran a Pre-Terminated Fiber Optic assembly across a warehouse and made the connections. It is imperative that certain procedures be followed in the handling of these cables to avoid damage and/or limiting their usefulness. Optical cables are becoming increasingly popular for transmitting high-quality audio signals between devices.
