

How to connect the fiber optic cable to the cable outlet panel

Overview

Locate the fiber optic wall outlet: This is where your ISP's fiber line enters your home. To connect your fiber optic cable to a router, ensure you have the following: Fiber optic modem (ONT): Most fiber connections require an Optical Network Terminal (ONT), provided by your ISP. Compatible router: Verify that your router supports fiber optic input (look for an SFP or WAN port labeled). There are endless ways to configure a fiber-optic network, but here are a few simple ways to add fiber to your existing network.

How to connect the fiber optic cable to the cable outlet panel

Optical fiber connector

Field-mountable optical fiber connectors are used to join optical fiber jumper cables that contain one single-mode fiber. Field-mountable optical fiber connectors are
