

How to fix the junction box when opening a sunroof

Overview

Like many electronic features, sunroofs can sometimes just need a reboot. To fix a sunroof that won't open, start with a reset, check fuses, clean tracks, and test the switch and motor. Is your car sunroof not opening or closing properly?

Don't worry—this video provides simple and effective solutions to get your sunroof functioning smoothly. Clogged tracks, broken cables, electric motors, and broken moon roof switches will prevent car moon roofs from opening.
