

How to install a broadband home terminal box

Overview

The engineer will: run a fibre cable from the nearest street distribution point to your home; install an ONT (Optical Network Terminal) on an outside or inside wall near a suitable entry point; connect the fibre cable to the ONT; test the connection and signal strength; and. An ONT (Optical Network Terminal) and its power supply, which is installed by Openreach. They cover what you and your sub-contractors will need to do to reach the quality we expect - from building the ducts and joint boxes, to the. more Sky Full Fibre Gigafast Review - Is Sky Ultrafast Broadband Any Good?
