

How to remove a 24-core fiber optic cable

Overview

Here's a step-by-step guide on how to terminate a fiber optic cable effectively:

Fiber optic stripper: To remove the buffer coating without damaging the core.

As an experienced technology writer who has covered broadband advancements for over a decade, I aim to provide readers with trustworthy instructions endorsed by industry experts. Therefore, never look directly into the end of an active fiber cable or the port of the equipment it was removed from. Termination involves attaching either a removable connector or a permanent splice to the fiber's end so it can mate with other fibers or.
