

How to repair communication fiber optic cables

Overview

This article outlines five specific steps for repair: 1) Identify the break; 2) Cut out the damaged section; 3) Strip the cable; 4) Trim the fiber ends; 5) Test the repair. DIY fiber optic cable repair kits are increasingly popular for those who prefer home repairs. This wikiHow article will teach you how to splice a cut fiber optic cable back together with a fiber optic stripper and cutter and a fiber optic crimper. Whether you're a network technician, IT professional, or telecom operator, you'll find practical steps, tools, and tips to restore. However, physical damage can disrupt this infrastructure and cause significant network issues.
