

How to set up a 50Mbps fiber optic router

Overview

To set up your router for fiber internet quickly, connect the router to your fiber modem, access the router's settings via a web browser, and input the provided ISP credentials. Make sure to update the firmware, configure Wi-Fi security, and customize your network name for optimal performance. However, setting up a fiber optic connection to your router can seem daunting if you're unfamiliar with the process. Fiber optic installation is the way to go! It's super reliable and perfect for streaming, gaming, or using multiple devices.
