

Huawei Releases First All-Optical Switch in Full-Connectivity Platform

Overview

Huawei has innovatively introduced the all-optical cross-connect (OXC) technology to data center networks (DCNs) and launched the industry-leading DC optical switch — Huawei OptiXtrans DC808 — to build a next-generation optical-electrical hybrid computing DCN for the AI era. During the 10 th Ultra-Broadband Forum (UBBF 2024), Bob Chen, the President of Huawei's Optical Business Product Line, captivated the audience with his keynote address entitled "Building an AI-Centric F5. " At the summit, Huawei shed light on the global progress of all-optical networks in driving digital and.

Huawei Releases First All-Optical Switch in Full-Connectivity Platform
