

Huawei S100 Switch Fiber Optic

Overview

The Huawei S100-16T2S is a high-performance network switch designed for scalability and reliability in small to medium-sized enterprise networks. S100&S200&S300&S500&S600 Series S100&S200&S300&S500&S600&S700: Access product manuals, HedEx documents, product images and visio stencils. An active optical cable (AOC) is a fixed-length optical fiber with optical modules at both ends. In a world where every millisecond counts, this hardware is the unsung architect behind everything from lag-free 4K streaming to real-time stock trades.

Huawei S100 Switch Fiber Optic

Connecting Second-Generation Hybrid Cable

Connect the jumper to the corresponding ports on the HDF and hybrid optical-electrical switch. During the connection, ensure that the port numbers on the HDF are the same as those on the switch.

Types of Optical Modules

Multimode optical modules are used with multimode fibers. Multimode fibers have lower transmission performance than single-mode fibers because of modal dispersion, but their costs are also lower.
