

Huijue Passive Optical Network User Terminal

Huijue Passive Optical Network User Terminal

Schematic of a typical passive optical access network. Optical line

Optical line terminal (OLT), installed by a service provider, distributes a TDM or WDM signal via ODN, consisting of transmission fibre and passive splitters/combiners.

What Is Passive Optical Networking (PON)?

Passive optical networking (PON), like active optical networking, uses fiber-optic cabling

to provide Ethernet connectivity from a main data source to endpoints.
