

ZTP Thermal & Power

ict6 Explosion-proof Distribution Box

Overview

- High protection grade up to IP66, suitable for outdoor and harsh industrial environments. - Customizable sizes, materials, and internal components to meet specific project requirements. ·Flameproof enclosure (Ex db), which can be used as feed distribution equipment in control and distribution system (such as distribution box, switch box of main circuit, control box, terminal box or motor starting box etc. comCrouse-Hinds series CEAG GHG66 Ex d IIC explosion-protected aluminum panelboards combine flameproof aluminum enclosures and Ex-e steel terminal boxes with a polyester powder coating suited for tropical and marine climates. The Ex d TBE series of enclosures is suitable for use in Gas Group IIC for the protection of electrical and control-system solutions, such as energy distribution, monitoring of processes and the complex control of machinery and other equipment. Explosion-proof Terminal Box MAMX-08 * Cable entry * Used in chemical, oil refining, oil exploitation, offshore oil platforms,oil tankers, military and other hazardous areas; Suitable for cable distribution when installing electrical appliances and lamps and especially when installing electrical.

Iict6 Explosion-proof Distribution Box

Ex-Basics

The ignition of an explosive atmosphere causes explosions, which can entail substantial damage to assets and injury of persons. To avoid explosions, protection directives, standards and regulations
