

# **India Standard for Primary Distribution Boxes**

## Overview

---

Goods or articles falling under Electrical Accessories must adhere to the corresponding Indian Standard 14772:2020, specifically covering Boxes and Enclosures for Electrical Accessories for Household and Similar Fixed Electrical Installations. Whereas the Parliament of India has set out to provide a practical regime of right to information for citizens to secure access to information under the control of public authorities, in order to promote transparency and accountability in the working of every public authority, and whereas the transparency in operation of certification under Scheme-I of Bureau of Indian Standards (Conformity Assessment) Regulation 1987 is tested, enclosures suitable for installation into concrete with a maximum temperature during the casting process further testing. Safe working temperature should be around 80°C for Outer Box & 100°C for metallic Bus bars. 1 Outer Box (Base & Cap): Suitable polymer with UV protection & Flame retardant characteristics (HB/V0 as per UL 94 - Tests for Flammability of Plastic materials). Specification covers the design, manufacture, testing at works and supply of Distribution Boxes made out of CRCA MS for controlling the L.
