

Industrial Level 1 Distribution Box Residual Current Protection

Industrial Level 1 Distribution Box Residual Current Protection

RD3 and RCQ020

A complete range of residual current devices for industrial applications. With the residual current devices with separate toroid, either in modular version (range RD3) or controlled from the switchboard front.

INSPECTION AND TESTING OF ELECTRICAL INSTALLATIONS:

PRCD is a device that provides RCD protection for any item of equipment supplied from a socket-outlet. Plugged into an existing socket-outlet. PRCDs are not part of the fixed installation.
