

Inner Mongolia Low-Voltage Intelligent Distribution Box

Inner Mongolia Low-Voltage Intelligent Distribution Box

Tongwei Silicon Energy (Inner Mongolia) 220kV

Featuring innovative transformer designs (leakage flux control, high-altitude cooling tech) and space-saving switchgear (1800mm clearance), the project ensures high

Inner Mongolia's power grid undergoes overhaul

This was part of the annual overhaul of Inner Mongolia's ultra-high voltage (UHV) power grid, making preparations for the upcoming summer electricity peak.

IoT-Based Low-Voltage Power Distribution System

The low-voltage distribution community actively carries out applications such as station operation status monitoring, camping and distribution
