

Installation cost of electricity meter and distribution box

Overview

Replacing a home meter box typically costs between US \$500-\$2,100, though large or complex jobs — like 400-amp or full service upgrades — may reach \$5,000+, depending on wiring, permits, and labor. It's difficult to put an exact figure on the cost of replacing an outside meter box. After all, this can vary depending on lots of different factors, which we'll cover shortly. Key cost drivers include panel amperage, indoor vs outdoor location, wiring length, and whether a full panel upgrade or rerouting is needed. Typical residential replacement costs \$600-\$2,000, with most homeowners paying \$1,000-\$1,400 depending on amperage and site conditions. An electrical meter box (or meter socket) houses the utility meter that measures your home's.
