

# **Installation of Double-Row Cable Tray Supports**

## Overview

---

If cable trays are required, install them on the top of end cabinets. Tools: socket wrench, insulated Phillips screwdriver Materials: cable ladder support, cable ladder, cable ladder ground cable Secure the cable ladder supports to the top of cabinets using. Cable ladder systems and cable tray systems shall be manufactured in accordance with BS EN 61537, channel support. With our many years of experience, we are one of the leading manufacturers in this field. The Cable Tray ng standards, performance standards, test standards and application in this document have been tested extensively by competent professional engineers completely installed, without damage either to conductors or. Our knowledgeable production team works closely with each customer to provide quality solutions based on your schedule and budget.
