

Installation price of vertical cable trays in low-voltage electrical shafts

Overview

Basic cable tray systems cost \$3-15 per foot depending on type and material. Installation labor adds \$5-8 per foot to total project costs. Ladder trays typically cost 20-30% less than solid bottom systems. Bulk orders of 1000+ feet can reduce unit pricing by 15-25%. Regional. en completely installed, without damage either to conductors or structural system use maintain spacing or to keep cables in place when the tray is ect the minimum bend radius for cables as they exit the bottom of the cable tray. The mechanical and electrical characteristics, tests, certifications, overall quality management, recommendations mentioned. Steel is the most widely used cable tray material due to its balance of cost-effectiveness and strength.
