

Integrated Operation and Maintenance Power Cabinet

Overview

Combines batteries, BMS, power conversion, and control modules in a single cabinet, simplifying installation and maintenance. Supports scalable configurations with capacities tailored to application needs, ensuring flexible deployment. Pacific Power Source's Integrated Cabinet System transforms our AC Power Sources, Grid Simulators, and Loads into a complete turnkey system. With an understanding that UPS system designs often require flexibility to fit a wide array of customer needs, Eaton offers a variety of distribution accessories as part of the 93PM UPS portfolio of solutions. Below is information on Eaton's sidecar accessory options and standalone accessory.
