

ZTP Thermal & Power

Integrated outdoor power cabinet armored for campus network users

Overview

With IP55/IP65-rated enclosures (other IP on request), these outdoor UPS cabinets combine UPS electronics, breaker protection, and flexible battery space to deliver reliable and continuous operation in harsh, remote, or roadside environments. The outdoor network cabinet for campus networks is a specialized enclosure designed to house and protect critical network infrastructure in exterior environments. This robust solution integrates advanced climate control systems, security features, and organized cable management to ensure optimal. The eMIMO architecture supports multiple input (grid, PV, genset) and output (12/24/48/57 V DC, 24/36/220 V AC) modes, integrating multiple energy sources into one.
