

ZTP Thermal & Power

Intelligent Management Module for Power Distribution Cabinets

Overview

IPDM provides reliable power distribution control and management for IT loads and, based on customer requirements, provides flexible power distribution through online hot-swappable switches. Predictive Alerts: From Protection to Prevention Traditional protection relies on circuit breakers—reactive by nature. RackPower Intelligent Power Distribution Units address controlling power on Cabinets as well as Open Frame Racks and Wall-Mount enclosures. Delta, a global leader in power management and a provider of IoT-based smart green solutions, today announced the launch of its new SMART PDU I-Type power management unit. You can distribute energy with the high-tech POWERGuard intelligent PDU which has a user-friendly interface for monitoring and managing the energy consumption of your data center cabinets.
