

Intelligent lighting distribution boxes can be customized to your needs

Overview

Professional manufacturers offer end-to-end customization from solution design and component selection to structural optimization: hospital operating rooms require high-reliability dual-power switching, data centers emphasize precise PDU monitoring, and photovoltaic power plants. We can be customized according to your needs for you the most accurate program and offer 1. Core needs What is the main purpose of the distribution box?

(for example: controlling a production line, powering multiple motors, or lighting or office space?

) What are you most concerned about?

(e. As one of the world's leading providers, INDU-ELECTRIC manufactures customized Power Distribution Solutions for every application. Our portfolio covers the full spectrum of Power Distribution Units - from permanently installed wall-mounted units to a wide range of mobile solutions. Custom boxes are engineered to your project's exact load requirements, with built-in safeguards like surge protection and fire-resistant materials—critical for spaces like schools and hospitals where lives depend on reliability.
